Begin at **November 6th, 2017**

ABOUT GO GROW

Go Grow is an accelerator at Copenhagen School of Entrepreneurship, at Copenhagen Business School. The DGP is an Industry Vertical in the existing Go Grow Startup Accelerator Programme.

Our aim is to enable focused startups to reach international growth through 4 months of collaboration with personal mentors, experts, CSE staff and other startups.

You will attend monthly workshops, facilitated group works, and go abroad to a targeted market.

Go Grow is open to:

Startups from all sectors and markets

Student entrepreneurs as well as entrepreneurs who are not in university

Startups with a potential for international growth

Startups at a stage where you have generated your first sale

The CSE and the partners will not take any ownership stake in the participating companies. Mentors and advisers will sign a non-disclosure agreement prior to programme start. Participation in Go Grow is free of charge.

ABOUT DIGITAL GROWTH PATH

Digital Growth Path (DGP) is a digital & manufacturing focused part of the Go Grow programme at Copenhagen School of Entrepreneurship (CSE).

Developed in cooperation with the Danish Industry Foundation and a range of university and business partners, DGP aims to accelerate manufacturing-tech entrepreneurs by educational modules and peer-interaction.

The DGP startup companies apply through the same competitive Go Grow process and work alongside the entrepreneurs in the Go Grow programme.

We take 0% equity from founders.
